

## Week Four:

At the end of the session participants will:

- Have met all of their personal learning goals.
- Had an opportunity to apply principles of a palliative approach to the resident with advanced dementia.
- Have had an opportunity to explore strategies to make a palliative approach happen within their facility.

0900- 0915: Welcome back

Recapping on last week

Homework: Care of self and others of the health care team

How we cope as individuals

How does the organization support us?

0915-1015: Review of learning goals - Cluster into common themes

Three groups to:

- Identify what they take away from the course; and
- Identify what they need extra
