

What is the General Practice Immunisation Incentive (GPII) Scheme?

Service Incentive Payment (SIP)

Outcomes Payment

- Made to practices quarterly
- Based on a target – 90% coverage or greater
- Practices need not provide immunisation services to be eligible for this incentive, but their practice population immunisation coverage rate must be 90> per cent
- Practices must register with the GPII Scheme to be eligible and to receive statements providing feedback on immunisation coverage

Immunisation Infrastructure Funding

Provides funds to:

- Divisions of General Practice
- State-based organisations
- National GP Immunisation Coordinator

To improve the proportion of children who are immunised at local, State and the national levels

The overall aim of the GPII scheme is to encourage at least 90 per cent of practices to achieve 90 per cent or greater proportions of full immunisation
